

TECH SHIELD

Guard Israeli Startups by ensuring
15 months runway (march '25)

Protecting Israel's tech industry is crucial. Through a series of syndicates with an initial target of up to 50 companies, we aim to extend their runways to 15 months, ensuring they remain operational post-war, retaining personnel, and driving the economy.

Up to \$5m per company

Tailored to scaling and growth companies

Know where your money is going

Invest in known set of 5-10 pre-selected companies per syndicate

Impact dozens of companies

Invest in one, all or several syndicates with a minimum investment of \$25,000

Focus on customer-serving companies

Recently affected with quick rebound potential

How does it work?

Tailored to scale-up and growth companies.

TechShield chooses 5-10 eligible companies per syndicate, that meet our investment criteria, allocating first capital of its own and making it available to vetted Jewish and Israel-supporting investors worldwide. Aiming to support up to 50 companies, retaining thousands of jobs and ensure the Israeli economy.
